

## QUALITY ENGINEER (M/W/X)

At PIEPS, we are proud to be considered the global technology leader in the manufacturing of avalanche transceivers. For more than 45 years, we have developed, produced and delivered products for alpine safety in the snow around the world. We are expanding our team and looking for someone to be a part of the impactful ride.

### Your role:

- By utilizing engineering fundamentals as well as the knowledge from real-world field experience, you will ensure the quality of all PIEPS and Black Diamond Equipment products.
- You will be closely involved in product development right from the start, verifying requirements and providing valuable input for R&D and product management.
- You will assist Directly Responsible Persons for R&D and Lab & Production in creating testing models for analyses of software and hardware of new and existing products, raw materials, materials in process, and finished products.
- You will execute quality tests to ensure no product is produced until it meets our rigorous criteria of material, product and service compliance.
- Furthermore, you will be assisting Management in coordinating the ISO Audit.
- With you, the execution of QM is in the best of hands: thanks to your high-quality standards, your accuracy, and your technical know-how, you will be a key player in the continued advancement of the leading alpine safety technology at PIEPS!

### Your profile:

- Completed education (HTL/FH/Uni) in the field of electrical engineering, telematics, biomedical engineering or similar
- Relevant professional experience and routine in the field of testing
- General knowledge of electromechanical design and analysis, strength of materials, statistics, data acquisition systems, and failure analysis.
- High quality standards for the product, but also for your area of work
- Communicative personality, able to work in a team, with diverse departments within Europe and USA
- Business fluency in German and English

### What we offer:

- Technically challenging tasks with a meaningful purpose
- Integration in an open and collegial team with international teamwork
- flat hierarchy and excellent culture
- Employee discounts at PIEPS and our sister company
- Flexible working times

If this sounds like your next challenge, we look forward to your application at [jobs@pieps.com](mailto:jobs@pieps.com)! In Austria, it is legally required to state the minimum annual salary for this position which is 43,432 € on a full-time basis of 38.5 hours/week). Our salary package for this position, however, is based on standard market salaries, your qualifications, and your professional experience. The actual salary is determined in a joint discussion.
